The health center offers COVID-19 screening for students, faculty and staff. Please call 479-575-4451. Health center providers will determine if students/employees meet those criteria for testing.

Due to continued limited availability of COVID-19 testing supplies, we are only able to test a limited number of U of A members consistent with ADH and CDC criteria. Depending on this determination, you may be asked to self-isolate and monitor your health without testing.

We are monitoring additional testing options as they come available for the U of A community.
